

The Truth about Sweets

 The average American eats more than 150 pounds of sugar each year!

 As part of a healthy diet, less than 10 teaspoons of sugar is recommended daily. Be careful! A slice of cake has about 10 teaspoons of sugar, and a regular can of soda has about 10 teaspoons.

 Like sugar, starchy foods such as potato chips or corn chips can cause cavities.

 Watch out for hidden sources of sugar such as corn syrup, molasses, fruit juice concentrate, and honey.

 Adding spices like cinnamon, ginger, vanilla or nutmeg can bring out the natural sweetness in foods without adding extra sugar and calories.

Celebrating at School or Child Care

Birthday Book Bash!

Wrap your child's favorite book in bright birthday wrapping paper and take it to the classroom or child care on your child's birthday. The teacher can unwrap the book and

read it to the group. This is a great way to celebrate your child's special day!

Happy And Healthy Celebrations

Children Love Parties!

Most children expect to see candy and cake at their school or child care party, but too many sweet snacks can make children overweight and cause cavities.

Overweight children have a greater chance of becoming overweight adults, which can lead to many health problems such as:

- Type 2 diabetes
- Heart disease
- Joint problems
- Some types of cancer

Keep your child healthy and happy! Take only healthy foods or party favors to your child's school party, child care party, or other celebration!

Tasty and Healthy Treats

apple slices with cheese
fruit kabobs
low-fat cheese sticks
low-fat muffins
whole wheat pita bread or crackers with bean dip
fruit smoothies
cheese and salsa quesadilla
vegetables with low-fat dip

Fruit and Yogurt Sundaes

- non-fat vanilla yogurt
- fresh or frozen berries thawed and cut into small pieces
- low-fat granola*

Directions:

Give each child a small cup filled half full with yogurt. Place the berries and granola in small bowls with serving spoons on the table and let children make their own sundaes.

*Be sure ingredients are not choking hazards

Bright Ideas to Make Your Child's Party Special

Instead of taking food treats to your child's school or child care, take fun party favors. Be sure items are age-appropriate.

Here are some ideas:

- Coloring books
- Stickers
- Jump ropes
- Mini-frisbees
- Matchbox cars
- Yo-Yo's
- Colored pencils or crayons
- Paddleballs
- Books
- Kazoos or whistles
- Play tattoos
- Balls
- Playing cards
- Small stuffed animals
- Or put together treat bags filled with fun toys

To save money, you can buy many of these toys at discount stores or outlets.
