<b>Announcements</b>	<ul style="list-style-type: none"> <li>The COI is currently requesting applications for the third round of environmental change mini-grants. The total award amount is \$5,700 and grant awards may range between \$500 and \$5,700. The deadline to apply is June 8, 2018 by 5:00pm. We will be hosting a webinar on May 7 to go over the application process and tips on what makes a strong application. We encourage partners to promote this funding opportunity and resources within their networks.</li> <li>The SD County Fair has reached out to the COI with interest in creating an ongoing partnership to help bring a healthy lens to the promotion and themes of the fair. The theme this year is, "How Sweet It Is", and the COI has agreed to provide behind-the-scenes support such as giving guidance on how to highlight the healthy food options and physical activity opportunities that exist at the Fair. More updates will be provided during next month's meeting.</li> </ul>	
<b>Vision Zero</b>	<ul style="list-style-type: none"> <li>Circulate SD has been working on the Fatal 15 which are the top 15 most dangerous intersections in the city of San Diego since last year. The Mayor's office made a commitment to fix the fatal 15 in this upcoming budget cycle which is a big win for Vision Zero. The data that is being utilized is Circulate's data analysis. They are also working on a crash analysis that will be released soon and used as well. The total budget ask cost is around \$385,000.</li> <li>Moving forward, May 3 is when they will be discussing Capital Improvement Program Projects (CIP) and transpiration storm water budget so that would be a good day to attend and speak in favor of vision zero.</li> <li>Later in May will be the evening budget hearing which will be the most optimal day for everyone to ask for what they want regarding Vision Zero.</li> <li>Maya and Nina spoke about the sub regional reports which include fact sheets one pagers of each city in the county. They include high crash corridors with collisions count, high crash</li> </ul>	<ul style="list-style-type: none"> <li>Maya send an email to Nina with more specific information regarding the budget cycle.</li> <li>Maya send information about evening budget hearing to Nina.</li> </ul>

	<p>intersection and the number of collisions, and compares the fatality rate for bikes and pedestrians to the murder rate of the city.</p> <ul style="list-style-type: none"> <li>• COI and Circulate will be releasing these fact sheets along with the toolkits that were created a few months back. Starting with South County cities in one report.</li> <li>• Tentatively, Maya was thinking that May 21 would a good date to hold a press conference to release and share the fact sheets and toolkits. Her idea is to reach out to stakeholders such as school district reps, city planning department, city managers, and elected officials to invite them to the press conference and get the conversation going prior to the release date. The replicated this process for all of the other Counties.</li> <li>• The next step is for the workgroup is to work on an invite list for these upcoming press releases.</li> </ul>	
<p><b>COI Forums Updates</b></p>	<ul style="list-style-type: none"> <li>• The COI has two forums coming up in the near future. The first one will be a 90 minute webinar planned for Friday, May 25 from 10:00-11:30 am. The webinar is titled, Addressing Health Disparities in Underserved Populations and will provide education on disparities within underserved populations, specifically as they relate to childhood obesity and the Hispanic/Latino population. We will have three panelists including Sandro Viera from the Prevention Institute, Professor of Medicine at UCSF, Alicia Fernandez, and Amy Beck, Assistant Professor of Pediatrics at UCSF. A save the date email will be sent out soon. Feel free to promote the webinar within your networks.</li> </ul>	
<p><b>Healthy Cities Profile Launch</b></p>	<ul style="list-style-type: none"> <li>• The Healthy Cities profile launch has been postponed.</li> </ul>
